## OBJECTIVE

Dedicated Information Science student with robust programming expertise and practical experience in data analysis and loan processing. Currently an intern at SitusAMC, where I excel in developing automated solutions and managing complex datasets. Seeking an analyst position to leverage my technical skills in Rust, SQL, and predictive analysis to drive data-driven decisions and optimize business processes.

## PROFESSIONAL EXPERIENCE

### Business Analyst Intern

May 2024 - August 2024

#### SitusAMC

- Worked with large datasets, primarily focusing on loans.
- Developed a parser in Rust to translate Compass queries to SQL.
- Utilized queries to aggregate data, amortize loans, and generate SMMs.
- Skills utilized: Rust, Python, Javascript, React SQL, data analysis, predictive analysis, database management, and manipulation.

### Coding with Kids

Sept 2023 - Present

#### Coding Instructor

- Teach programming concepts to children aged 8-14 using Python, Java, HTML, and C#
- Develop and implement engaging lesson plans to foster students' interest in technology
- Able to break down and communicate complex coding skills

### Colorado Party Rentals

Summers May 2022 - Sept 2023

#### Event Planner/Setup

- Managed inventory and facilitated efficient setup and breakdown of event equipment
- Demonstrated strong teamwork and problem-solving abilities in fast-paced settings

### Lockheed Martin

Nov 2019 - March 2020

#### Student Program

- Participated in a team project to develop underwater ROV
- Gained exposure to basic project skills (Designing, Prototyping, etc)

## EDUCATION

University Of Colorado  
Boulder

2022 - 2025

BACHELOR OF INFORMATION SCIENCE

ASSOCIATES OF  
SCIENCE

Arapahoe Community  
College

2019 - 2022

## SKILLS

- Programming Languages: Python, Java, Rust, JavaScript, HTML/CSS
- Web Development: React
- Data Analysis & Manipulation: SQL, predictive analysis, loan analysis
- Process Automation: Automated solutions development
- Database Management: Large dataset manipulation
- Data Visualization: Tableau
- Project Management Tools: Various project management tools
- Version Control: Git, Azure Devops
- APIs & Web Services: API integration and development
- Machine Learning: Basic machine learning concepts and algorithms
- Soft Skills: Strong communication, problem-solving, teamwork
